About Al Zahra hospital Sharjah:

Established in 1981. This is the first and the largest private general hospital in the UAE. Both inpatient and outpatient treatment is of an international standard and is backed by the latest radiology and laboratory facilities.

NMC Healthcare is the largest private healthcare company in the UAE. Over the last 48 years, NMC has earned the trust of millions, thanks to its personalised care, genuine concern and a sincere commitment to the overall well-being of the communities it serves.

Before going for delisting in April 2020, NMC had enjoyed recognition as the first company from Abu Dhabi to list on the London Stock Exchange and be a part of the premium FTSE 100 Index, an elite club of top 100 blue-chip companies by market cap.

NMC's strategic acquisitions coupled with its legacy institutions have allowed it to fill the service gap in the healthcare delivery system and offer a continuum of care to patients in acute, chronic care and long-term care.

Today, the company has put the key components in place to create a strong, inter-connected, integrated multi-vertical and multi-brand private healthcare network with the scalability and flexibility to grow our operations in the future.

On 25 March 2022, the core operations of NMC Healthcare Group exited administration in the UAE, allowing a newly formed holding company, named NMC OpCo Ltd, to chart a fresh path in the provision of world-class community-first healthcare.

The new NMC, which is the largest integrated private healthcare platform in the UAE and the third largest in Oman, employs over 12,000 people and serves over 5.5 million patient interactions annually through 11 hospitals and 54 community clinics and specialty care centres that include medical centres, long term care facilities, day surgery centres, fertility clinics and home health services.

With a legacy stretching as far back as 1975, NMC Healthcare has been chalking out distinct strategies that reflect its continuing leadership in the market.
