About EHS Hospital:

Emirates Health Services was established with the aim of enhancing the efficiency of the federal health sector in the country, by providing health care and treatment services, and taking preventive measures and combating epidemics and diseases, as well as achieving sustainable development of health care.

The Emirates Health Services considered as a federal organization that fully committed to achieve the national agenda of UAE Vision 2021, which aims to position the UAE at the heart of the global knowledge economy by promoting innovation. EHS contribute to this achievement by creating world-class health care system and ensure the high quality of services provided by both public and private hospitals across the United Arab Emirates.

Knowledge defined as the result of blending the information with personal experience and perceptions. While knowledge management is defined as the systematic management of knowledge assets at the entity, in order to create added value and meet the strategic needs; it includes all initiatives, processes and systems that contribute to knowledge production, acquisition, classification, storage, dissemination and use / re-use.

Knowledge is classified into two types Explicit Knowledge which includes knowledge that can be identified and expressed in words, numbers, or symbols, and can be stored electronically or in writing, in addition to the ability to publish and refer to it easily. And Tacit Knowledge, knowledge that is existing in the minds of people and is difficult to be transferred from one person to another through writing or verbal expression.

Based on the UAE's vision 2021 aims to make UAE one of the most innovative countries in the world, as innovation is the foundation of life-quality and development, this comes in line with the National Agenda and the National Innovation Strategy, which focused on the health sector's vital role that will

lead the innovation process in the future.

In line with the UAE wise leadership's faith that innovation is the capital of the future. UAE's vision 2021 emphasizes this approach in various fields and sectors, where the innovations, research, science and technology are the cornerstones of a competitive, high-productivity economy.

In this context, Emirates Health Services is committed to instilling the principles and concepts of innovation practices in accordance with the best international standards at all strategic, organizational and operational levels, to achieve the real and qualitative advancement of services provided to all segments of society. ehs jobs near me

In order to fulfil this, EHS is keen to develop a comprehensive and integrated system of innovation management and lay the foundations of the innovation engines such as the innovation strategy, governance, innovation makers and activation of the innovation through partnerships and establishment of a regulatory environment that supports the consolidation of innovation practices and measuring impact, development and continuous enhancement to ensure qualitative upgrading and sustainable improvement. ehs manager jobs
