About **IBM:**

At IBM, we do more than work. We create. We create as technologists, developers, and engineers. We create with our partners. We create with our competitors. If you're searching for ways to make the world work better through technology and infrastructure, software and consulting, then we want to work with you. We're here to help every creator turn their "what if" into what is. Let's create something that will change everything.

Our clients' systems support modern society. In making them faster, more productive, and more secure, we don't just make business work better. We make the world work better.

We bring together all the necessary technology and services, regardless of where those solutions come from, to help clients solve the most pressing business problems.

IBM integrates technology and expertise, providing infrastructure, software (including market-leading Red Hat) and consulting services for clients as they pursue the digital transformation of the world's mission-critical businesses.

IBM is always on the hunt for what's next. Learn more about the group of more than 3,000 scientists and researchers around the globe who deeply believe in the power of the scientific method to invent at IBM Research. For example, we are leading the charge in quantum computing.

In 2021, we furthered our tradition of leadership in sustainability, announcing a goal of net-zero greenhouse gas emissions by 2030 across all the countries in which we operate. Our data-driven sustainability solutions are helping clients turn ambition into action.

One area of interest for IBM is in personal digital employees, or digeys, AI-powered workers who can relieve employees of their most repetitive, mundane tasks. Learn more about Watson Orchestrate. We believe intelligent automation solutions will help businesses improve workflows, integrate systems and gain insights into operations. Learn more at IBM Automation.

Transformation is being transformed — from one-off initiatives to an urgent, purpose-driven imperative. Modern businesses must move faster, but also with more empathy and openness.

IBM Consulting is a new partner for the new rules of modern business. We embrace an open way of working by bringing a diverse set of voices and technologies together. We collaborate closely, ideate freely and swiftly apply breakthrough innovations that drive exponential impact to change how business gets done.
